TOOLBOX, REAR MUDGUARD MOUNTED FOR SHALLOW REAR MUDGUARD NORMALLY FITTED TO 500's (Part No. 90237)

Parts List:

Part No.	Description	Qty
90238C	TOOLBOX, REAR MUDGUARD MOUNTED (For 500 style mudguard)	1
560211	LOCK, with orange base (FOR LONG KEYS)	1
143134	LOCK, all white (FOR SHORT KEYS)	1
92509L	FOAM PAD	1
92740A	BOLT, 6mm X 20mm, BUTTON HEAD, STAINLESS	2
M6S	NYLOC NUT, 6mm, stainless	2
141061A	WASHER, FLAT, 6mm (14mm OD), stainless	2
140383S	WASHER, 6mm large OD, stainless	2
143079	CLIP LOCK	1
26962A	BADGE, GREEN, BLACK AND GOLD (Pre-fixed)	1

The toolbox is pre drilled for 2 bolts and this must be positioned on the rear mudguard behind the dual seat in the most appropriate position. Then hold securely in place while you drill through into the rear mudguard. Use the foam pad between the mudguard and underside of the toolbox. This is to allow for variances between the shapes of mudguards (use the foam elsewhere if necessary). The box is then held in place by the supplied button head screws, washers and nyloc nuts using the large washers on the inside of the toolbox.

560211
Long Key

143134
Short Key

143079
Clip Lock

The locks will take your standard ignition key. There are two types to cater for either short or long keys. The lock is held in place with the clip lock, which hooks under the bracket already in place inside the box.
