## **PART 200130**

### **COMPETITION VALVE KIT (350cc only)**

Please note that valve stem caps must **NOT** be used with these valves. The rocker arms run directly on the valves.

It may be necessary to ream the valve guides once fitted. If you require a reamer please order, Part Number: 98333.

The split collets are machined as matched pairs but should be split before fitting. Care must be taken to ensure that where these are split that the area is clean from burrs.

When fitting valve springs please ensure that the tighter wound end of the spring is fitted towards the cylinder head.

If one valve guide has a longer taper than the other, this should be fitted on the inlet side.
