CON RODS
ENGLISH MADE STRENGTHENED AND IMPROVED REPRODUCTION

Please read the following notes completely before fitting your Conrods

BOLTS

All Bolts should be lubricated under the heads as well as the threads using high quality engine oil.

Do Not Use Loctite.

The bolts should be tightened evenly to bring the Cap and Rod together. Then Torqued to 15ft lbs for the initial setting, they should then be fully tightened to 40ft lbs.

Care must be taken to ensure the rod clears the bottom of the cylinder barrel and the crankcases when the engine is turned over by hand.

PLEASE NOTE it is the engine builders responsibility to ensure these conrods are fitted correctly.
