92834 + 92839 REAR MUDGUARD FOR 650 CONTINENTAL GT and 650 INTERCEPTOR

In this kit you will have received:

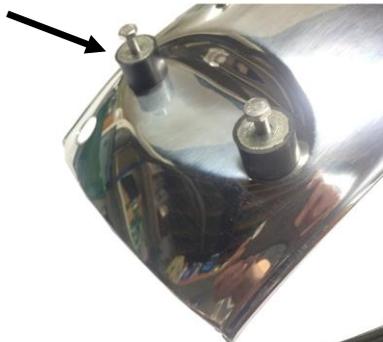

- 1 x Alloy mudguard
- 3 x Push in wiring holder
- 3 x Zip ties
- 2 x Rubber mount with male and female thread
- 2 x Rubber mount nyloc nut
- 2 x Rubber mount steel washer
- 2 x Rubber mount 6mm x 16mm bolts
- 2 x Plastic cupped washers

Follow the instructions in the workshop manual to dismantle the original rear mudguard.

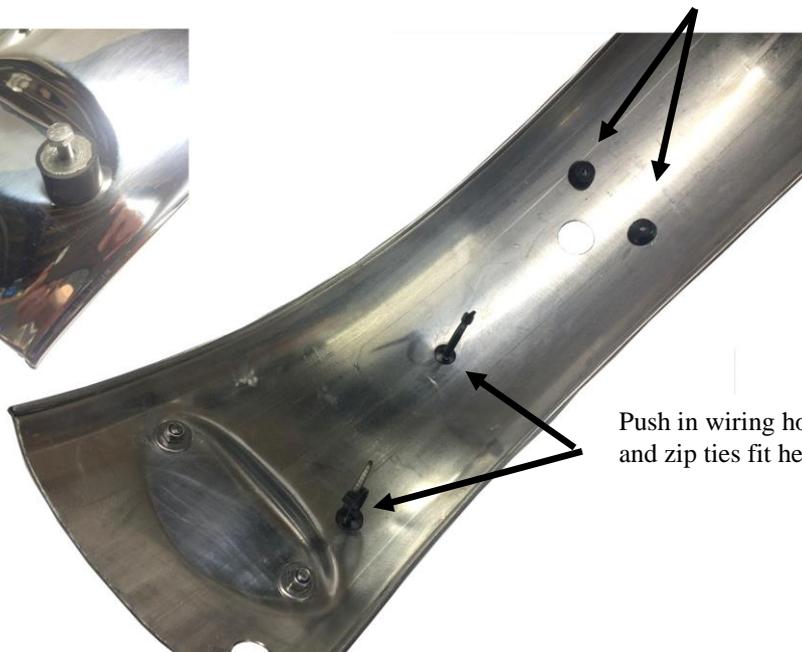

Fitting the new mudguard is a reversal of the dismantling using all the original nuts, bolts and washers but with the few exceptions shown below:

Rubber mounts fitted here with flat steel washer and nyloc nuts underneath.

6mm x 16mm bolts screw through frame into rubber mounts using original large washers

Plastic cup washers fit here and original 5mm screws used.

Push in wiring holders and zip ties fit here
